## Professional Summary (Total Experience 9 Years)

As a Software Engineer with deep expertise in React Native, Expo and React JS, I excel at building complex applications. I possess a strong understanding of core concepts, libraries (Redux, APIs), and full-stack development using JavaScript. My experience includes debugging, testing, UI/UX considerations, and potentially cross-platform development. I thrive in agile environments and possess excellent communication skills for successful collaboration.

## Experience

**SOFTWARE ENGINEER** | 02/2024 - Current

**Agile Professional Group, Birmingham, United Kingdom**

- Built high-performing mobile applications using React Native and Expo for over 6 years, with a deep understanding of core concepts and best practices.
- Utilized React Native and Expo to efficiently develop applications for both iOS and Android, optimizing user experience for each platform.
- Effectively partnered with designers, product owners, and stakeholders to translate requirements into clear, actionable mobile app features.
- Wrote clean, maintainable, and well-documented code, ensuring long-term code health and efficient collaboration within the development team.
- Contributed to smooth and responsive mobile app experiences by optimizing code for performance and identifying opportunities for improvement.
- Stayed up-to-date with the latest trends and best practices in React Native and mobile development, actively sharing knowledge with the team for continuous improvement.
- Leveraged Expo's capabilities to streamline development processes, including tooling, deployment, and analytics.

**REACT NATIVE DEVELOPER** | 09/2023 - 01/2024

**Freelance - Ahmedabad, India**

- Managing software development projects and ensuring that project milestones are met on time.
- Communicating effectively with clients to provide updates on project progress and receive feedback.
- Contributing to the development of company-wide standards and best practices for mobile app development

**SENIOR LEAD REACT NATIVE DEVELOPER** | 01/2023 - 08/2023

**Metronomic Limited - United Kingdom (Remote)**

- Leading a team of developers to ensure that projects are completed on time and to a high standard
- Collaborating with designers, product owners, and other stakeholders to define project requirements and ensure that they are met
- Writing clean, maintainable, and well-documented code
- Reviewing code written by other developers and providing feedback and suggestions for improvement
- Staying up-to-date with the latest trends and best practices in mobile app development, and sharing this knowledge with the team
- Mentoring junior developers and helping them to improve their skills and knowledge
- Contributing to the development of company-wide standards and best practices for mobile app development

## **REACT NATIVE AND REACT JS DEVELOPER | 01/2022 - 12/2022**
